

## RFB&D and ICAM Partner to Serve Eligible Students in Indiana

RFB&D and ICAM's partnership serves all Indiana students with print disabilities. All DRMs have access to RFB&D's library of more than 63,000 titles in Downloadable DAISY (AudioPlus) format. RFB&D has more than 85% of Indiana's textbooks available in audio format. Indiana's education administrators, general and special education teachers, and families will find RFB&D to be of particular importance to print disabled students who need access to an alternate format of standard print instructional material.

This statewide initiative is intended to assist local educational agencies as they strive to support the individual reading accommodations needed for students. The accessibility to the library and teacher resources will enable your district the greatest amount of flexibility in providing reading related accommodations to your students at school.

All ordering will be done through ICAM's ordering system. Each DRM has an RFB&D membership available to them. The memberships will need to be registered with RFB&D by emailing the RFB&D ID (provided by ICAM), name, school/district name, address, phone number and email address to [aimcustserv@rfd.org](mailto:aimcustserv@rfd.org). Please ask your DRMs to register their memberships with RFB&D today to prevent any delays in providing accessible materials to qualifying students. ICAM is also providing DAISY compatible software to each LEA that will be accessed by the DRM.

RFB&D also provides free, at-home memberships for qualifying students through federal funding. Students can be registered by their parents at [www.rfd.org](http://www.rfd.org).

Please visit [www.rfd.org/Indiana](http://www.rfd.org/Indiana) for more information. We have attached a flyer for you to disburse in your schools and districts.

Thank you,  
Ellen Gallagher and Laura McMahon
